

Ask our clerk or agent to escort you through the printing establishment. You will want to know where and how the EVANGELIST, Sunday-school literature, tracts, etc., are printed.

How much of *self* did you bring with you to the conference? It is not needed at this meeting and you may as well return it at once. The railroad company will carry it free, it weighs nothing.

Above all things let this conference begin and end its work, in the spirit of God, and let each one pray that the Holy Spirit may so direct our deliberations that the results may redound to the honor and glory of God.

The Book and Tract committee has its headquarters in the College Hall leading to the chapel. Call and see what we have to offer you in the way of Bibles, books, tracts, pamphlets, stationery, etc. Our agents are clever fellows and you can be perfectly free in asking them any questions you choose.

Why not purchase a lot of tracts and take them home with you for distribution? You can purchase them at half regular rates. We will sell you fifty copies of Apostolic Baptism for only 25 cents. This offer is limited to those who purchase at the conference. We can afford to do this because it costs us no postage. There are 6000 of these tracts on hand, 36 pages each. Let 100 persons, each purchase fifty copies, at 25 cents.

A GREAT victory in favor of law and order has been won in New York City. The struggle for the enforcement of the New York excise law has suddenly come to an end with the unconditional surrender of the Liquor Dealer's Association. The speedy conviction of violators of the law and the heavy penalties imposed, have broken the backbone of the liquor dealer's resistance, and President Roosevelt has proven to the people of this country that after all *law can be enforced*. All it requires is men of backbone. When a few are made to suffer the penalties of the law, such law will be respected. If the law can be enforced in New York City with a disgraced police force, then it can be enforced any where else in the Union. Here is the resolution of the liquor dealers.

Resolved, That on and after Sunday, September 1, 1895, all members of the Wine, Liquor, and Beer Dealers' Association of New York shall close their places of business on Sunday, and any member of the Association who shall thereafter keep his place of business open, in violation of this resolution and in violation of the law, shall forfeit all his rights, privileges, and benefits as a member of said Association.

KANEMORADO BIBLE CONFERENCE.

Our president refers to work of Committee for District, and I have the following to say: I was not a member of the original committee, but was appointed July 15, to take the place of a brother who resigned a few weeks previous, I was authorized to "*get out and announce full program of time, place and exercises*." The same week a call was made in the paper for August 28. Owing to circumstances I felt this was rather short, then about this time famine was staring us in the face, some of us at least. The time was not suitable for Bethany, it would be better later, and it was only after consulting with the official members of the church that we decided to await developments. If there was anything wrong done, I am ready to take my share of the responsibility and will not feel lonesome. The Conference will be held October 17, 18 and 19. All are invited. We desire a good meeting, a Bible Conference, one that will help us know Christ, his word and church, and cause us to go out and work for the extension of his kingdom, a Conference that will have fewer resolutions on paper and more evolutions in work. Miss Stella Burger, Reserve, Kans., has charge of the Young People's work, one session will be devoted to women's work. More said later.

THE DEDICATION AT LAPAZ.

Brother Miller will report the work at LaPaz. I shall only refer to my impression of the work. I preached for the congregation on Saturday night, Sunday morning, afternoon and night. Large congregations at all four services. In the evening the church was dedicated; all the money was raised except one hundred dollars, which the trustees assumed and will soon raise. The congregation here is alive, wide-awake, progressive people. They have a splendid little church; the pastor enjoys the confidence of his people, and both have bright prospects for the future. I enjoyed the visit to LaPaz, and trust some day to renew our acquaintance. Indiana seems ripe for Christ. May the harvest be gathered.

A MONO-MANIAC.

Think of a farmer devoting himself to the acquisition simply of all the modern and costly agricultural machines that are invented, recommended and sold for ploughing, cultivating and harvesting purposes. And to this he gives his time, strength, means—everything without any reference scarcely to the meagre amount of seed he has to sow, or the very limited acreage of land he has to cultivate. We would call him a mono-maniac.

—Latest report has it, that Gen. Campos, military governor of Cuba and commander-in-chief of the Spanish forces in Cuba, has resigned his post and will return to Spain. If this be true, Spain has received a serious blow, and the Cubans have great reason to rejoice. Gen. Campos is said to be the greatest commander in Spain, and his resignation virtually admits that he is unable to cope with the insurgents. The indications are that Spain will not be able to hold Cuba under subjection for any great length of time. Spain would do well to sell Cuba to the United States or Mexico, there being a rapidly growing sentiment in favor of annexation, in the latter country.
